

SECURUS SS-VZ50L5-LPR-VF-M2 | 2.0MP ANPR Camera**Function Description :-**

The intelligent ANPR camera are designed to meet the needs of a wide range of applications including traffic management, Police, Security, Parking and tolling in addition to further intelligent Transport System (ITS) requirements.

High-precision vehicle and license plate recognition algorithm

- The mature video vehicle detection technology can identify vehicles running at 0-50 Km/H (See Algorithm specification) without stopping them for card swiping or embedding ground loops.
- Support the recognition of unlicensed vehicles and features code comparison.
- Support the video triggering, coil trigger, vehicle capture rate exceeds 99% recognition rate exceeds 99% (See Algorithm Specification)

Adaptive to complicated environments

- Can work under a variety of special circumstances : wide roads, short depth, vehicles from multiple directions, etc.
- Support ultra-wide dynamic image optimization and dynamic adjustment of plate image parameters, and adapt to complicated lighting scenarios: front/back lighting.

2MP low light HD Camera

- SONY 1/2.8" Progressive Scan, CMOS, Provide 1920 x 1080 @ 25fps
- Support H.265/H.264/MJPEG video compression, multi-level video quality configuration.
- 120db WDR supportable for backlight environment.

Support diversified businesses

- Support built-in white lists.
- Support secondary development inside the camera and allow offline billing
- Free SDK: support multiple linking solutions such as the dynamic link library (DLL) and com components, support a variety of development languages like C, C++, C#, VB, Delphi, Java, etc.
